#### **BAALBAKI ADDS DEPUR KIMYA IN TURKEY**

— Baalbaki Group SA, a leading independent supplier of polyurethane systems and PU raw materials in the Middle East, has acquired the assets of Turkish company Depur Kimya and launched its own Turkish subsidiary under the name BCI Baalbaki Kimya Sanayi ve Ticaret AS.

This is part of the group's expansion plan, and follows the "successful implementation of Baalbaki's affiliates in UAE in 2007 and Egypt in 2009," said the company, in a 24 June announcement.

BCI Baalbaki Kimya Sanayi ve Ticaret has already started selling polyurethane systems as well as providing technical service to its clients in Turkey in May 2010, and has a target of starting its own production facilities in 2011, Baalbaki added.
